

The London Gazette.

Published by Authority.

From Monday March 31. to Thursday April 3. 1684.

Jamaica, January 10.

WE have this day received an account that Laurens, Michael Tankers and another Privateer cruising off of Cartagena, The Spaniards sent out three Men of War, the one mounted with 40, the other with 30, and the third with 25 Guns, to chase them off the Coast; who were all three taken by the said Privateers.

Postscript. It is certain that Laurens and his Companions have taken two Spanish Men of War, the one of 45, and the other of 35 Guns, and a great Sloop: The Spaniards lost about 400 men, and the Privateers but 14; And these sent back the Sloop with the dead and wounded men to Cartagena. This action happened in Christmas week, three or four Leagues to the Leeward of Cartagena.

Vienna, March 26. Our Letters from Newfel give us an account that the Troops of Lithuania are gone back to Poland, pretending they could no longer subsist in their Quarters in Hungary. That Count Tockley having received a very considerable Reinforcement of Turks, did ravage and destroy the Country, and particularly the Estates of such of the Nobility as have now again at Presbourg sworn Fidelity to the Emperor; That he was going to attack the Castle of Ungwar; And that it was very much feared he would make himself Master of the Berg Towns.

Linz, March 28. The Duke of Lorraine returned hither from Presbourg on the 25th instant, and has since had several Conferences with the Ministers of this Court. Count Tockley who has got together 10 or 12000 men, spreads a great Terror in Upper-Hungary, and it is said he has again besieged Ungwar. The Ratifications of the League against the Turks, to which is added two Private Articles, have been exchanged here, and Expresses were dispatched from hence on Wednesday last with the said Ratifications to Poland and Venice. The Emperor having received an account that the Troops of Lithuania, and the Polish Troops who had their Quarters in Hungary, have left them and are gone back to Poland, his Imperial Majesty hath sent a Gentleman with Letters to that King, to desire his Majesty to cause the said Troops to return to Hungary. By the way of *Cracow* we have advice that the new Grand Visier is very suddenly expected at Belgrade, but that it was still said that the Aga of the Janizaries is to have the chief command of the Army. It is confirmed that the Turks have put some Companies of Janizaries and 40 Wagons laden with Provisions into Newbessel.

Hamburg, April 4. The 28 past some Danish Troops surprised this Town of Mollem, belonging to the Duke of Saxe-Lauenburg, and others have since taken quarters in his Country and in Mecklenburg. The King of Denmark having a pretention upon those Countries, for the quarters which the Emperor assigned his Majesty upon them in the Year 1678. It is said that the City of Lubeck has treated with the Dukes of Lauenburg for 1000 men, and that they are to pay for them 4000 Crowns a Month. From Copenhagen we have an account, that the Prince of Montacke, Envoy Extraordinary from the Elector of Cologne, was arrived there, and had had a private Audience of the King, and several Conferences with his Ministers.

Rainbonne, March 30. Our Letters from Linz of the 24th instant inform us, that Count Tockley hath laid in Ashes several Villages in the County of Scapule, and that the poor Inhabitants have been forced to take Arms and join with him: That he hath with him besides his own Troops, 4000 Tartars, 1200 Janizaries, and about 2000 Turkish Horse, with which (making together a Body of above 12000 men) he hath again blockaded up the Castle of Ungwar: That General Caraffa hath been obliged to retire with the Imperial Forces under his command towards Leutschau. And though the Emperor's Troops will very suddenly be drawn together about Trenchin, yet it is feared the Enemy will in the mean time attack and make themselves Masters of the Berg Towns, to prevent which, Colonel Heusler is ordered to march that way with 2000 Horse and Dragoons to observe their motions. The Rebels have made incursions as far as St. Nicolas, and have burnt a great many Villages, and have treated very cruelly the Gentry on that side, who did not appear according to the late Summons published by Count Tockley. They write from Presbourg, that the Estate of Count Czabor is restored to him, but in a condition, that he complains it will not afford him a subsistence. And that the Estates of the other Hungarians that have appeared before the Commissioners at Presbourg, will likewise be restored to them; but as to Ecclesiastical Matters, this Protestants are barely referred to the Conclusion of the Diet at Odenburg in 1681, and to the 25 and 26 Articles of it, and some of their Ministers have now lately been put in Prison, so that it is feared this Commission will not have the good Effects that was expected from it.

Brussels, April 7. The Villages between Antwerp, Malines, Louvain, and this City, are filled with Dutch Troops; and from Antwerp we have an account, that the Prince of Orange's Regiment of Foot Guards is expected there in a day or two. The Marquis de Grana has given orders for the preparing a Train of Artillery, which is to consist of 24 Pieces of Cannon; the Carriages, Ammunition, and other necessities are providing at Malines, and 500 Horses are bought for that Service. His Excellency hath caused 1500 Horses more to be bought to mount the Cavalry and Dragoons that want, and hath ordered 500 Dragoons to be raised at 40 Crowns a man, to recruit the Regiments of Dragoons in the Service of these Countries. And the Wallon Regiment of Foot will be likewise recruited. One of the Magistrates of the City of Mons came hither last night, with two other Deputies, to represent to his Excellency the condition of that place, and to pray that some more Troops may be sent thither, for that they have great reason to fear the place will be very suddenly attacked. His Excellency hath sent thither Monsieur Orsini General of Bartalis, to command under the Prince de Raeb, who we hear has caused all the Sluices to be opened, and has laid the Country round the place under water, and intends to break the Sluice upon the little River that comes from St. Gislain, to make it unnavigable; and hath commanded every House-keeper to provide Provisions for himself and Family for six weeks, and a hand-Mill to grind their Corn. An Express arrived here two days ago from Spain, who came by Sea, and had a very quick Voyage; The Express he came upon is kept Secret.
